Download and Install Ignition SCADA

In the next lecture, the **Micro850 PLC act as MODBUS Server** and **Ignition SCADA act as MODBUS Client** which reads and write the data to the Micro850 PLC.

For this project, we are using **Ignition SCADA** which can be downloaded from this link: https://inductiveautomation.com/downloads/

The Ignition SCADA software can be downloaded for free and can be used as trial software for 2 hours (resettable)
