Hello again!

I hope you enjoyed Micro850 Controller with its amazing PLC programming software which supports offline simulation.

I would like to mention that there is a next update in which you will learn about:

- FBD Programming
- Structures text programming
- Pick and Place project
- Analog card interfacing
- MODBUS Interfacing
- SCADA and Node-RED interfacing

In the meanwhile, keep practicing and don't forget to share your updates in our following group:
- Facebook
: https://www.facebook.com/groups/codeandcompile
- LinkedIn: https://www.linkedin.com/company/code-and-compile/
